Product information:

The CLP157 is a 110 Ohm DMX terminator, featuring a 3-pin XLR connector. A DMX terminator should be plugged in into the last connected device in the DMX chain, preventing reflections causing data transmission errors on the DMX databus.

Properties:

Gold plated

110Ω
DMX-AES
Impedance

Product Features:

Application	AV & IT
	Rental & MI
Series	Classic Series
	Bulk & Accessories
