- 100W (20V/5A) up to 1.5 m
- 60W (20V/3A) up to 3 m
- LSHF jacket

Product information:

The CSD622 is a Slimline USB Type-C to Angled USB Type-C connection cable, connecting USB 3.2 Gen 2 (10 Gbps) compatible devices with each other. The angled connection allows the connection of devices with limited space behind them. The triple-shielded cable with a super slim design of only Ø 4.8 mm offers a clean solution for desktop use and patch connections. This cable is equipped with an E-marker chipset and can be used for data transfer as well as charging USB type-C devices with power delivery up to 100W (20V/5A) or 60W (20V/3A) depending on the length. The cable is fully backwards compatible with USB 2.0 devices and is also capable of AV signals up to 8K @ 60 Hz (DP Alt mode).

Properties:

8K
