

Product information:

1 meter sample pack of the CCX159 which is a coaxial installation cable featuring a Flamoflex™ outer jacket compliant to the IEC 60332-1 standard regarding fire and flammability resistance in public installations. The Flamoflex™ material is specifically designed with installers convenience in mind, offering a smooth and durable outer jacket for easy installation and pulling. This cable is designed according the RG59/U standard, featuring a solid high purity copper conductor which is surrounded by polyethylene isolator. The double shielding consisting of an overall aluminum foil surrounded by a braiding offers a high immunity against noise and interference caused by external devices. The CCX159 cable can be used for a wide variety of installation applications such as CATV and CCTV distribution, analogue video interconnections as well has HDTV digital SDI, HD-SDI and 3G-SDI video transmissions. Compatible with Neutrik BNC connector NBNC75BLP7 (CCX159).

Recommended HD distance : 80 m

Properties:

Meter indicator

LSHF

IEC 60332

75Ω

Impedance

HD-**SDI**

1.5Gb/s

Inner Conductors:

SOLID COPPER

Shielding:

TINNED COPPER BRAIDING

ALUMINUM FOIL

Product Features:

Application
