

Product information:

The REF735 is fitted with two 3-pin XLR male connectors and one 3-pin female XLR connector, the construction is made using the RIG58 cable. The RIG series cables are very high quality signal cables for indoor fixed or mobile applications. They have a PVC jacket and are very easy to handle. The tin plated inner conductors are fitted with a durable tin plated copper shielding which gives an excellent protection against interference of all kinds such as electromagnetic fields produced by dimmers, electric motors or power cables. The RIG series cables are "all-round" signal cables which are suited for all kinds of applications where the best reliable signal transmission is needed. The premade cable comes in a length of 1,5 meters.
