

Highlights:

- · 26 AWG 75 Ohm stranded coaxial
- 2 x coaxial
- · Braided individual shielding

Product information:

The SVHS10 is a high quality S-VHS cable with internal 2 shielded coax cables to carry luminance and chrominance signals and is ideal for all quality S-VHS interconnects. The 7-strand bare copper conductors of the coax cables ensure a good flexibility of the cable while the twisted tinned copper shielding provides a good shielding from external electrical noise.

Properties:

 75Ω

Inner Conductors:

Shielding:

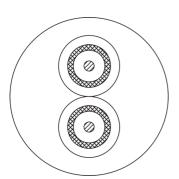

Product Features:

Application AV & IT

Series Bulk & Accessories

Variants:

• SVHS10/1 - 100 meter
