

## Highlights:

---

- 2 x coaxial
- 26 AWG 75 Ohm stranded coaxial
- Braided individual shielding

## Product information:

---

The SVHS10 is a high quality S-VHS cable with internal 2 shielded coax cables to carry luminance and chrominance signals and is ideal for all quality S-VHS interconnects. The 7-strand bare copper conductors of the coax cables ensure a good flexibility of the cable while the twisted tinned copper shielding provides a good shielding from external electrical noise.

## Properties:

---

## Inner Conductors:

---

## Shielding:
